Commencement

Spring | 2026

Friday | May 29, 2026

The President's Charge

CSU Global Graduates,

Today marks a very significant step. Commencement is a moment to look back at the effort you put in to reach this milestone. Your journey to this day has been defined by more than just coursework and credits. It has been defined by your commitment to your goal while navigating the complexities of your professional and personal lives. Earning your degree has meant hours of dedicated study, personal sacrifice, and growth.

You have mastered the practical skills, tools, and knowledge needed to succeed in your field, and, even more importantly, you have become ready to meet the needs of an ever-evolving world. You have demonstrated that you are a lifelong learner, capable of navigating challenges with strength and intent.

Commencement is also a moment to examine the future you have chosen to build. As you step into your next chapter, I encourage you to approach every new challenge with the same tenacity you brought to your studies, remaining open to new perspectives and innovative solutions.

Continue to lead with integrity, as your skills are now an instrument to make meaningful contributions to your industries and communities. Finally, know that you are now part of an enduring network. We encourage you to engage with the CSU Global Alumni Association, not only for your professional growth and support, but to mentor those who will follow in your footsteps.

On behalf of the entire CSU Global faculty and staff, it is my great privilege to congratulate you. We have been honored to serve you in your educational journey, and we look forward to witnessing your continued success.

With admiration and pride,

*Dr. Audra Spicer
Interim President and CEO, CSU Global*

CSU Global Mission & Vision

Mission Statement

Colorado State University Global is committed to advancing student academic and professional success in a global society, by providing access to dynamic education characterized by excellence, innovative delivery technologies, industry relevance, and strong stakeholder engagement.

Vision Statement

CSU Global is the premier provider of innovative, higher learning opportunities for modern learners around the world.

About CSU Global

Colorado State University Global (CSU Global) was created to fit into the busy lives of working adults and to facilitate career advancement through bachelor's degree and master's degree programs, specializations, certificates, and courses in career-relevant fields. As a mission-driven university focused on student success and the increased accessibility and return-on-investment from higher education, CSU Global is proud of its unique position, innovative tools, comprehensive online learning platform, and expert faculty members who are recognized as leaders in their fields of study and specially trained to teach modern learners in an online environment.

CSU Global was established in 2007 by the Colorado State University System (CSUS) Board of Governors to meet the educational needs of post-traditional, modern learners in Colorado and beyond. In 2008, CSU Global became the nation's first 100% online, accredited, statutorily independent university. Today, CSU Global has conferred more than 40,000 undergraduate and graduate degrees and certificates.

The university is proud of its top nationwide rankings and its global recognition as one of today's most innovative and advanced higher education institutions. A high level of student satisfaction and student achievement is evident in the university's above-average retention rates, its continually increasing enrollment through referrals, and its significant percentage of alumni working for above-average pay. As the university strives to accomplish the vision and mission originally established by the CSUS Board of Governors, its student diversity has helped to ensure a unique global community of freely expressed ideas and thought-provoking learning.

COLORADO STATE UNIVERSITY
— GLOBAL —

Colorado State University Global (CSU Global) was created by the Colorado State University System Board of Governors in 2007 as the first 100% online, accredited state university in the United States. CSU Global is focused on facilitating adult success in a global marketplace through career-relevant education, including bachelor's degree and master's degree and certificate programs. Embracing the land grant heritage as part of the Colorado State University System, CSU Global sets the standard for quality and innovation in higher education through its expert faculty, trained in working with adults in an online learning environment, and through its dedication to student retention, graduation, and workplace success.
